Jacom – a Made-to-Measure System

The Challenge

Wuppertal-based IT accessories company Jacom-EDV-Zubehoer supplies kiosks and shops selling magazines, tobacco and lottery tickets with complete cash-register systems. One important function of such systems is the inputting of data. Jacom had been on the lookout for a compact, freely programmable keyboard for this purpose. They wanted a keyboard that would not only be easy to configure, but also support a variety of operating systems.

The Solution

German producer PrehKeyTec's MCI 84 keyboard matched Jacom's requirements exactly. In addition, these keyboards come with a high environmental protection rating, a valuable plus in the retail context they were to be used in.

Uwe Jablonowski, Managing Director of Jacom commented that obtaining the keyboard from PrehKeyTec's distribution partner EWL Display and Printing Solutions had been perfectly straightforward, and that the delivery lead times had been short.

> "The MCI 84 is a very sturdy and reliable keyboard; we haven't had any problems with it and certainly no complaints."
>
> **Uwe Jablonowski, Managing Director of Jacom**

Contact Details

Jacom-EDV-Zubehoer (www.jacom-edv.de) has been the competent IT partner of chain stores, retailers, wholesalers and industrial companies since 1992. In the retail sector, it has established itself as a supplier of PC-based point of sale scanners to shops, cafés and retailers of tobacco products and magazines. It also supplies CCTV equipment, IT accessories, hardware, software, telecoms, office and industrial equipment. Jacom prides itself of fast on-site as well as remote support.

As a distributor active in the field of cash register systems, EWL Display and Printing Solutions GmbH (www.ewl-dps.de) supplies customers in the retail, hospitality and industrial sectors not only with the products of leading hardware manufacturers, but also with highly competent technical support.

PrehKeyTec GmbH designs and manufactures intelligent data entry and multi-functional solutions for many demanding applications. This includes customised programmable keyboards and keypads, along with data input devices. These solutions reduce the complexities of inputting data at the point of entry and therefore deliver operational benefits for the customer. All over the world, PrehKeyTec's products are being used, from retail to banking, to industrial and aviation applications. PrehKeyTec GmbH is certified to DIN EN ISO 9001 quality standards, has many years of experience in design and manufacturing, and operates from its own manufacturing plant in Mellrichstadt, Northern Bavaria, offering true "Made in Germany" solutions.
