

Programmable keyboards at the packing line in PICARD's logistics

Challenge

Friedrich PICARD GmbH & Co. KG is a wholesaler for bearings and linear motion technology and supplies all its customers worldwide from its location Bochum, Germany. The company guarantees its customers that the goods will be dispatched on the same day they are ordered. To ensure fast processing, both for dispatch on the same day and for dispatch by courier service, an intuitive and individualized data entry is essential.

Solution

Due to the flexible key programming and labeling PICARD was able to put together a keyboard that offers exactly the required functions. The MCI 30 keypad enables employees at the packing line, in combination with barcode scanners, to quickly and specifically select shipping features and enter weights and address data into the shipping system. In this way, the processing time per package can be optimized and it can be ensured that the ordered goods are delivered wherever and whenever the customer wishes.

"With the compact and programmable keypad from PrehKeyTec, we enter our data into our dispatch system quickly and efficiently."

Sascha Krinke, Head of Logistics at Friedrich PICARD GmbH & Co. KG

Contact

Friedrich PICARD GmbH & Co. KG

We exclusively supply the specialist trade for bearings and linear motion technology all over the world – directly from Bochum. We only stock premium products at the best conditions. With PICARD, you ensure logistic strength in Europe, Russia, North and South America, and the rest of the world.

PrehKeyTec GmbH

designs and manufactures intelligent data entry and multi-functional solutions for many demanding applications. This includes customised programmable keyboards and keypads, along with data input devices. These solutions reduce the complexities of inputting data at the point of entry and therefore deliver operational benefits for the customer. All over the world, PrehKeyTec's products are being used, from retail to banking, to industrial and aviation applications. PrehKeyTec GmbH is certified to DIN EN ISO 9001 quality standards, has many years of experience in design and manufacturing, and operates from its own manufacturing plant in Mellrichstadt, Northern Bavaria, offering true "Made in Germany" solutions.
