

SPI GmbH and ReiseBank AG – Hardware meets Software

The Challenge

ReiseBank AG, a daughter company of DZ BANK AG, operates foreign currency exchange offices at train stations, airports, and in shopping centers. They process money transfers to other countries and trade noble metals. They required a keyboard with a small footprint that offered a magnetic stripe reader for debit and credit cards, and allowed for free programming of long sequences on each individual key.

The Solution

PrehKeyTec's MCI 30 and its features made a very convincing impression from the beginning and complied exactly with the requirements of the end user. The custom layout and the programming functions adapted perfectly to the existing banking software.

„The keyboard is compact and durable, very resilient for continuous operation at the counter. Therefore we are extremely pleased with the MCI 30.“

Oliver Ullmann, Technical Services, SPI GmbH

Kontakt

SPI GmbH (spi.de) is an IT system house, specialized on development, consulting, and support of projects in retail, industrial, and banking markets. The company offers a complete portfolio of IT strategy, management, technology, and conceptual design – from the first step to the implementation of an entire solution.

ReiseBank AG (www.reisebank.de) is Germany's market leader in transactions with travel funds. A 100% daughter of DZ BANK AG, ReiseBank is integrated into cooperative finance group Volksbanken Raiffeisenbanken with more than 800 cooperative banks. It operates over 90 agencies at airports, train stations, border crossings, and in attractive city locations.

PrehKeyTec GmbH designs and manufactures intelligent data entry and multi-functional solutions for many demanding applications. This includes customised programmable keyboards and keypads, along with data input devices. These solutions reduce the complexities of inputting data at the point of entry and therefore deliver operational benefits for the customer. All over the world, PrehKeyTec's products are being used, from retail to banking, to industrial and aviation applications. PrehKeyTec GmbH is certified to DIN EN ISO 9001 and 14001 quality standards, has many years of experience in design and manufacturing, and operates from its own manufacturing plant in Mellrichstadt, Northern Bavaria, offering true "Made in Germany" solutions.
