

Schuster & Walther – Raising productivity with a custom solution for tax accountants

The Challenge

In Germany tax accountants, financial auditors, lawyers, and enterprises often use software solutions and IT services from the market leader DATEV eG for preparation of the annual accounts, fixed asset accounting, tax declaration, on-going financial accounting, or internal office organisation.

Recurring activities waste employees' valuable working time and reduce productivity. It doesn't have to be this way.

The Solution

In cooperation with the data entry experts PrehKeyTec, Schuster & Walther IT-Kanzlei GmbH has adapted the programmable keyboards MCI 3100 and MCI 60 to the core products of software company DATEV eG. In addition to the special function keys, the premium keyboard MCI 3100 offers a regular alpha area, F-keys, a numeric block and arrow keys.

"A single key click replaces the complex navigation by mouse or the three-finger salute, and instantaneously opens the requested application."

Norbert Zinkel, Managing Director of Schuster & Walther IT-Kanzlei GmbH

Contact Details

Schuster & Walther IT-Kanzlei GmbH (www.schuwa.de) is member of Schuster & Walther IT group and focuses on tax accountants, lawyers, financial auditors and their customers. Schuster & Walther is leading in DATEV solutions and offers extensive IT solutions and consulting services that cope with the high requirements of the tax accountant and law office environment.

PrehKeyTec GmbH designs and manufactures intelligent data entry and multi-functional solutions for many demanding applications. This includes customised programmable keyboards and keypads, along with data input devices. These solutions reduce the complexities of inputting data at the point of entry and therefore deliver operational benefits for the customer. All over the world, PrehKeyTec's products are being used, from retail to banking, to industrial and aviation applications. PrehKeyTec GmbH is certified to DIN EN ISO 9001 and 14001 quality standards, has many years of experience in design and manufacturing, and operates from its own manufacturing plant in Mellrichstadt, Northern Bavaria, offering true "Made in Germany" solutions.
